Fred - Have you been in contact with Joyel Dhieux?

Let me know what I can do to help.

-Peter

Hi, Peter.

You are correct, Steve has retired from EPA. Joyel Dhieux is the new OSC managing the interim water treatment plant (copied on this email). Her phone number is 303-312-6647.

Cynthia – I just heard that Steve Way is no longer the site manager for the temporary Gladstone treatment plant and may no longer be working for EPA. Is that correct?

If so, I was wondering who is the site manager now. The people we have been working with who have the cavitation unit were hoping to pull some Gold King water out of the pond for testing next week. Steve had been quite amenable to letting them do that in the past.

They have permission from Todd Hennis to be on the property.
